THE WALL STREET JOURNAL. **Newsweek Money**

About James Lange, CPA, Attorney and Financial Advisor

With more than one-third of a century of estate and retirement planning experience, **James Lange** and his team have drafted 2,510 Wills and Trusts.

Jim's estate and tax planning strategies have been endorsed by *The Wall Street Journal* (36 times), *Newsweek*, *Money* magazine, *Smart Money*, *Reader's Digest*, *Bottom Line*, and *Kiplinger's*. His articles have appeared in *Bottom Line*, *Financial Planning*, *The Tax Adviser*, *Journal of Retirement Planning*, and *Trusts & Estates*.

Mr. Lange is the author of six best-selling books, including three editions of *Retire Secure!*, endorsed by Charles Schwab, Larry King, Ed Slott, Jane Bryant Quinn, Roger Ibbotson and 50 other experts; *The Roth Revolution*, endorsed by Ed Slott, Natalie Choate, Bob Keebler; *The Ultimate Retirement and Estate Plan for Your Million-Dollar IRA*, endorsed by Bill Flanagan, Paul Merriman, and Burton Malkiel; and *The \$214,000 Mistake, How to Double Your Social Security and Maximize Your IRAs* endorsed by Larry Kotlikoff, Jonathan Clements, Paul Merriman, and Elaine Floyd.

Jim is the creator of **Lange's Cascading Beneficiary Plan** and **The Roth IRA Institute**. His analysis of the advantages and tax savings for Roth IRA conversions has been peer-reviewed by the top tax journal of the American Institute of CPAs. In addition, Jim has interviewed 15 IRA experts on his radio show, all of whom believe that most taxpayers, at some point, will benefit from a Roth IRA conversion—and that was *before* today's favorable new tax environment made Roth IRAs even more advantageous.

(continued)

Years ago, I wrote a best-selling book on how to retire secure for life through strategically timed *Roth IRA conversions*—as well as other proven retirement and estate planning methods.

But now, the new Trump tax laws have put the tax-saving power of Roth IRA conversions on steroids.

As a result, by following the strategies you'll discover in my new free workshops, you and your family could be *hundreds of thousands of dollars better off*—with legacy wealth that will last for generations.

Here's the First Step to Building Your Wealth Under the New Trump Tax Law

The new historically low tax rates, combined with the inevitable tax raises in the near future, create a mathematically compelling case for married couples to closely look at Roth IRA conversions—before it is too late.

Traditionally, the best time to do a Roth IRA conversion is after you no longer have an income from your job or business, but before you turn 70, when required minimum distribution and Social Security benefits boost your income again. The ideal time for a Roth IRA conversion is the short window while you are in your lowest tax bracket. *But now, the new tax laws open that window for a much broader group of taxpayers.*

Even more exciting, multiple years at lower tax rates, which the new tax law may give us, could present a golden opportunity to gain long-term protection from inevitable tax increases. The new lower tax rates are set to expire December 31, 2025. Which means the time to lock in those savings is now.

But, that doesn't mean everyone should be doing large Roth conversions right now, because each person's situation is different. You also have to factor in additional premiums on Medicare Part B, the impact on qualified dividend exclusion, capital gains rates, as well as investment income tax rates.

Now, Eliminate Retirement Money Worries for Good

In addition to Roth IRA conversions, my free workshops cover our battle-proven classic planning ideas—strategies that have not lost their luster, despite the tax law changes.

You'll discover the best estate plan for married IRA and retirement plan owners. And you will receive our guidelines on required minimum distributions, smart trust planning, the **Lange Cascading Beneficiary Plan**, the advantages of low-cost index investing, and so much more.

Who Says You Can't Control From the Grave? Using Trusts to Protect Your Family

How, When, and Why to Name Trusts as Beneficiaries of IRAs or Retirement Plans

Trusts can ensure your hard-earned money is handled responsibly, long after you are gone. Perhaps you are worried that your no-good son-in-law will divorce your daughter and walk away with half of the money you left her. Trusts can stop him dead in the water!

Want to stop your grandson from blowing his inheritance on a Ferrari when he is 21? Learn about Trusts to protect younger beneficiaries from irresponsible spending.

This workshop addresses Trust strategies that can keep your wealth intact and help protect your heirs from blowing through their inheritance.

Trusts for adult children, however, are often not appropriate—and this workshop helps distinguish when you should and should not have a Trust.

Trusts can also cause massive income tax acceleration after your death if they don't meet five specific conditions. Yet the vast majority of attorneys don't include those provisions in their trusts. This tax acceleration could cost your children hundreds of thousands, maybe millions of dollars. Also covered: *Is the extra time, effort, and expense of avoiding probate worth it?*

SESSION 2: 1:00 – 3:00 PM

New Trump Tax Laws Create Unintended Benefits for Savvy IRA and Retirement Plan Owners Who Act Quickly

As demonstrated by the graph, optimizing your Social Security and Roth IRA conversion planning can make a difference of as much as a million dollars—and it could be even more with the new Trump tax laws.

Chart Assumptions:

- There are two couples with the same investments, the same earnings record for Social Security, and tax rates. But, there are significant differences in their Roth IRA conversion and Social Security strategies. Please note: the new tax law is likely to increase the difference between the two outcomes.
- Couple #1 (represented by the solid line) takes their Social Security as soon as they can, at age 62. They do not make any Roth IRA conversions.
- Couple #2 (represented by the dashed line) optimizes Social Security and Roth IRA conversions. They wait until age 70 to file for Social Security benefits, and they make annual \$50,000 Roth IRA conversions from the age of 62 to age 70.

To register for any or all of our **FREE** workshops, call **412-521-2732** today while seats are still available.

Why would you pay taxes up-front and convert a portion of your traditional IRA or retirement plan to a Roth IRA? *Answer:* a Roth IRA could grow income tax-free for the rest of your life, your spouse's life, your kid's lives, and even your grandkid's lives.

Roth conversions, coupled with smart Social Security decisions, could increase your and your family's purchasing power by tens of thousands, potentially hundreds of thousands or even a million dollars.

The benefit to future generations is impressive. But, the real eye-opener is that Roth IRA conversions are great for older IRA owners during their lifetime.

For married couples, Roth IRA conversions protect the surviving spouse who will be faced with higher tax brackets as a widow—and potentially even higher taxes with the new tax laws. Women, who are likely to live longer, are particularly vulnerable.

This information-packed workshop, with Roth IRA analysis, peer-reviewed and vetted by the **American Institute of CPAs'** most prestigious tax journal, can help you get more tax benefits from a Roth IRA conversion, and more security for your family. And it's newly updated to maximize your savings under the new Trump tax laws.

SESSION 3: 3:15 – 3:45 PM

What Makes More Money? The S&P 500 or Active Money Managers?

Another great strategy to build your retirement wealth and estate: invest in no-load, low-cost, well-diversified, and tax-efficient index funds. Our preferred sets of funds, **Dimensional Fund Advisors (DFA)**, were previously only available to institutional investors. In fact, *only 0.15% of asset management firms are approved to offer clients access to these funds* and **Lange Financial Group, LLC** is one of them.

Over the long term, we believe DFA index funds will have an advantage over their Vanguard counterparts³, even after subtracting a modest 1% annual management fee.

Paul Merriman, a well-known retired investment advisor who used both Vanguard and DFA during his career, says he has his own money in DFA funds for two reasons. First, he likes the wide array of DFA investment options. Secondly, DFA funds come with an accredited expert personal advisor who custom-tailors your asset allocation balances and rebalances your portfolio as needed.

We can "run the numbers" to create your ideal financial plan.

In addition to gaining access to DFA funds, clients who work with **Lange Financial Group** also benefit from our exhaustive "running of the numbers" to come up with the financial plan that's right for them.

How it Works: We offer long-term projections. We assess different scenarios. We factor in important retirement and estate planning decisions, including: *Roth IRA Conversion Planning; Rates of Return; Estate Planning; Social Security Planning; how much you can spend without running out of money; and other sometimes complex and confusing variables.*

Results: With you in the room while we run your numbers, together we come up with a "master plan" of your long-term finances, seeing the different results of different decisions. Then, we update that plan every year. So you can confidently maximize your returns at a risk level that you are comfortable with while taking steps to protect your wealth⁴.

^{3,4} Past performance is no guarantee of future results. All investing involves risk, including the potential for loss of principal. There is no guarantee that any strategy will be successful. Indexes are not available for direct investment.
